خلاصہ (Summary)
Data analyst who turns messy sales data into decisions – “numbers first, story second”.

EXPERIENCE
Junior Data Analyst — Crescent Retail Group (fictional) — 2024 – Present
• Built SQL queries (CTEs, window functions) in PostgreSQL to track daily sales across 85 stores.
• Designed 6 Power BI dashboards used by regional managers every Monday.
▪ Automated a weekly Excel report with Python (pandas, openpyxl), saving ~5 hours per week.
▪ Ran an A/B test on store-layout changes and reported a 3.2% uplift in basket size.
– Presented findings to non-technical stakeholders in Urdu and English.

Data Entry Intern – Sahara Microfinance (fictional) – 2023
• Cleaned 20,000 loan records; fixed duplicate and missing values.

EDUCATION
BS Statistics, Bahauddin Valley University (fictional), 2019 – 2023
final-year thesis: “Forecasting wheat prices with ARIMA”

SKILLS
SQL · Python (pandas) · Excel (pivot tables, XLOOKUP) · Power BI · Tableau (basic) · Statistics · A/B testing
زبانیں: اردو (مادری)، انگریزی (روانی)، سرائیکی
